

ATTEND OUR COMMUNITY EVENTS

Postcard Parties

Come together with fellow ACLU activists and write postcards to key legislators urging them to vote to end the death penalty. Death penalty repeal will not pass unless legislators hear from you! Be part of the ACLU community and help us end this unjust system.

Community Conversations

We want to hear from you! Join the ACLU team for evenings of food, discussion and activism throughout the state as we build a community-driven campaign to end the death penalty. Learn more about the death penalty with community experts and directly impacted people. Engage with your neighbors and legislators at discussion tables and share why you support the end of the death penalty. Receive an ACLU activist training and learn how to use social media to hold legislators accountable, how to write an effective letter to the editor, how to write postcards to legislators and how to advocate on behalf of important issues to legislators at town halls and at the Capitol. Your direct engagement - by coming together to take action and defend civil liberties in Colorado - is what will end this broken system.
